Vocabulary

Changing a flat tire

When a tire hits something hard, or when it runs over something sharp, it may go **flat**. A **tire** might also go flat after you park the vehicle. Sometimes a tire loses **air** slowly while the vehicle sits in a garage, parking lot, or on the street. A flat tire can be in **the front** or **the back of** the vehicle.

A flat tire **certainly** never happens at a good time. It can happen when you're driving on a city street, a busy highway, a mountain road, or when you're waiting for a red light to change. Tires go flat in bad weather, too. When it's raining, or it's very hot outside, you'll want to make a **quick** tire change.

When you have a flat tire, the first thing you should do is to move the vehicle off the road quickly. **Hurry** to move the vehicle out of traffic onto **flat** land; you don't want to get hit by another vehicle traveling on the road.

There should be an **extra** tire and some tools in your vehicle. In a car, the **spare** tire's under a **cover** inside the **trunk**. You will need your **key** to open the trunk. On an SUV, the spare tire is on the back of the vehicle. On a truck, the spare tire is between the two rear **wheels**.

Remove the spare tire, **wrench**, and **jack** from the trunk. Put them on the ground by the flat tire.

When you change a tire, work slowly and carefully. Never change a tire **in a hurry**. Take **enough** time to do the job safely and right.

Use the wrench to **loosen** the **lug nuts**, but do not remove them. The **nuts** fasten the **hubcap** and the tire to the wheel. The hubcap **covers** the center of the wheel.

Then, put the jack under the vehicle near the flat tire. Slowly **jack up** the vehicle until the flat is above the ground. Be sure to **raise** the vehicle high enough.

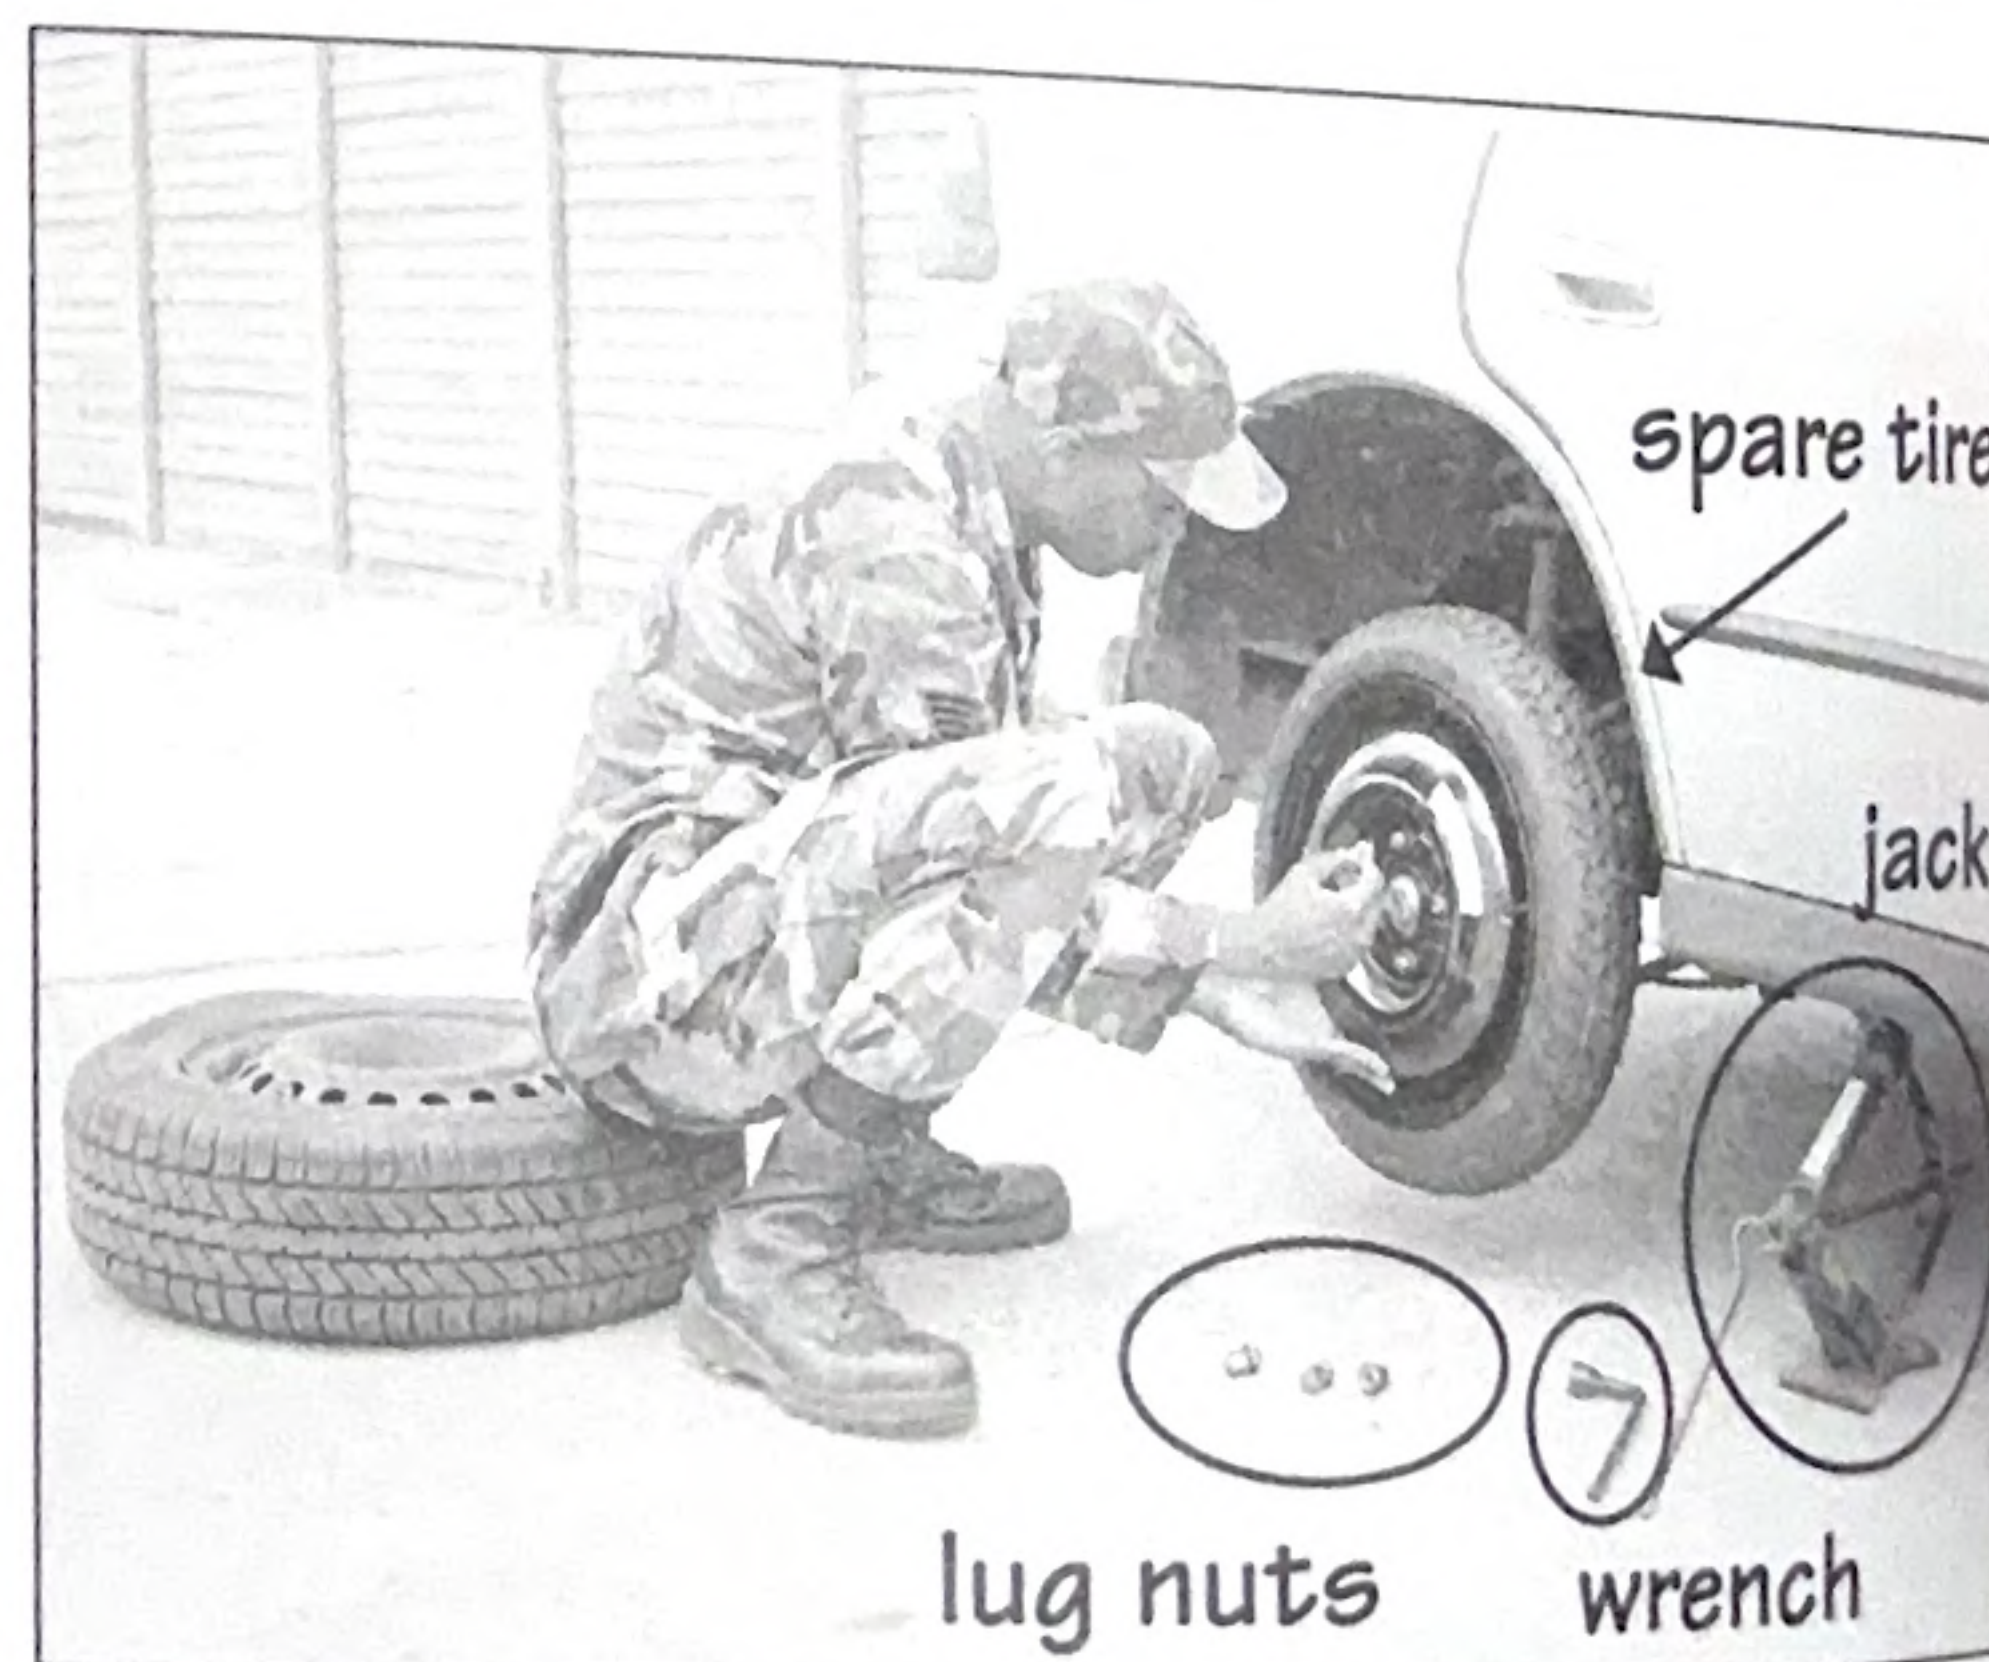

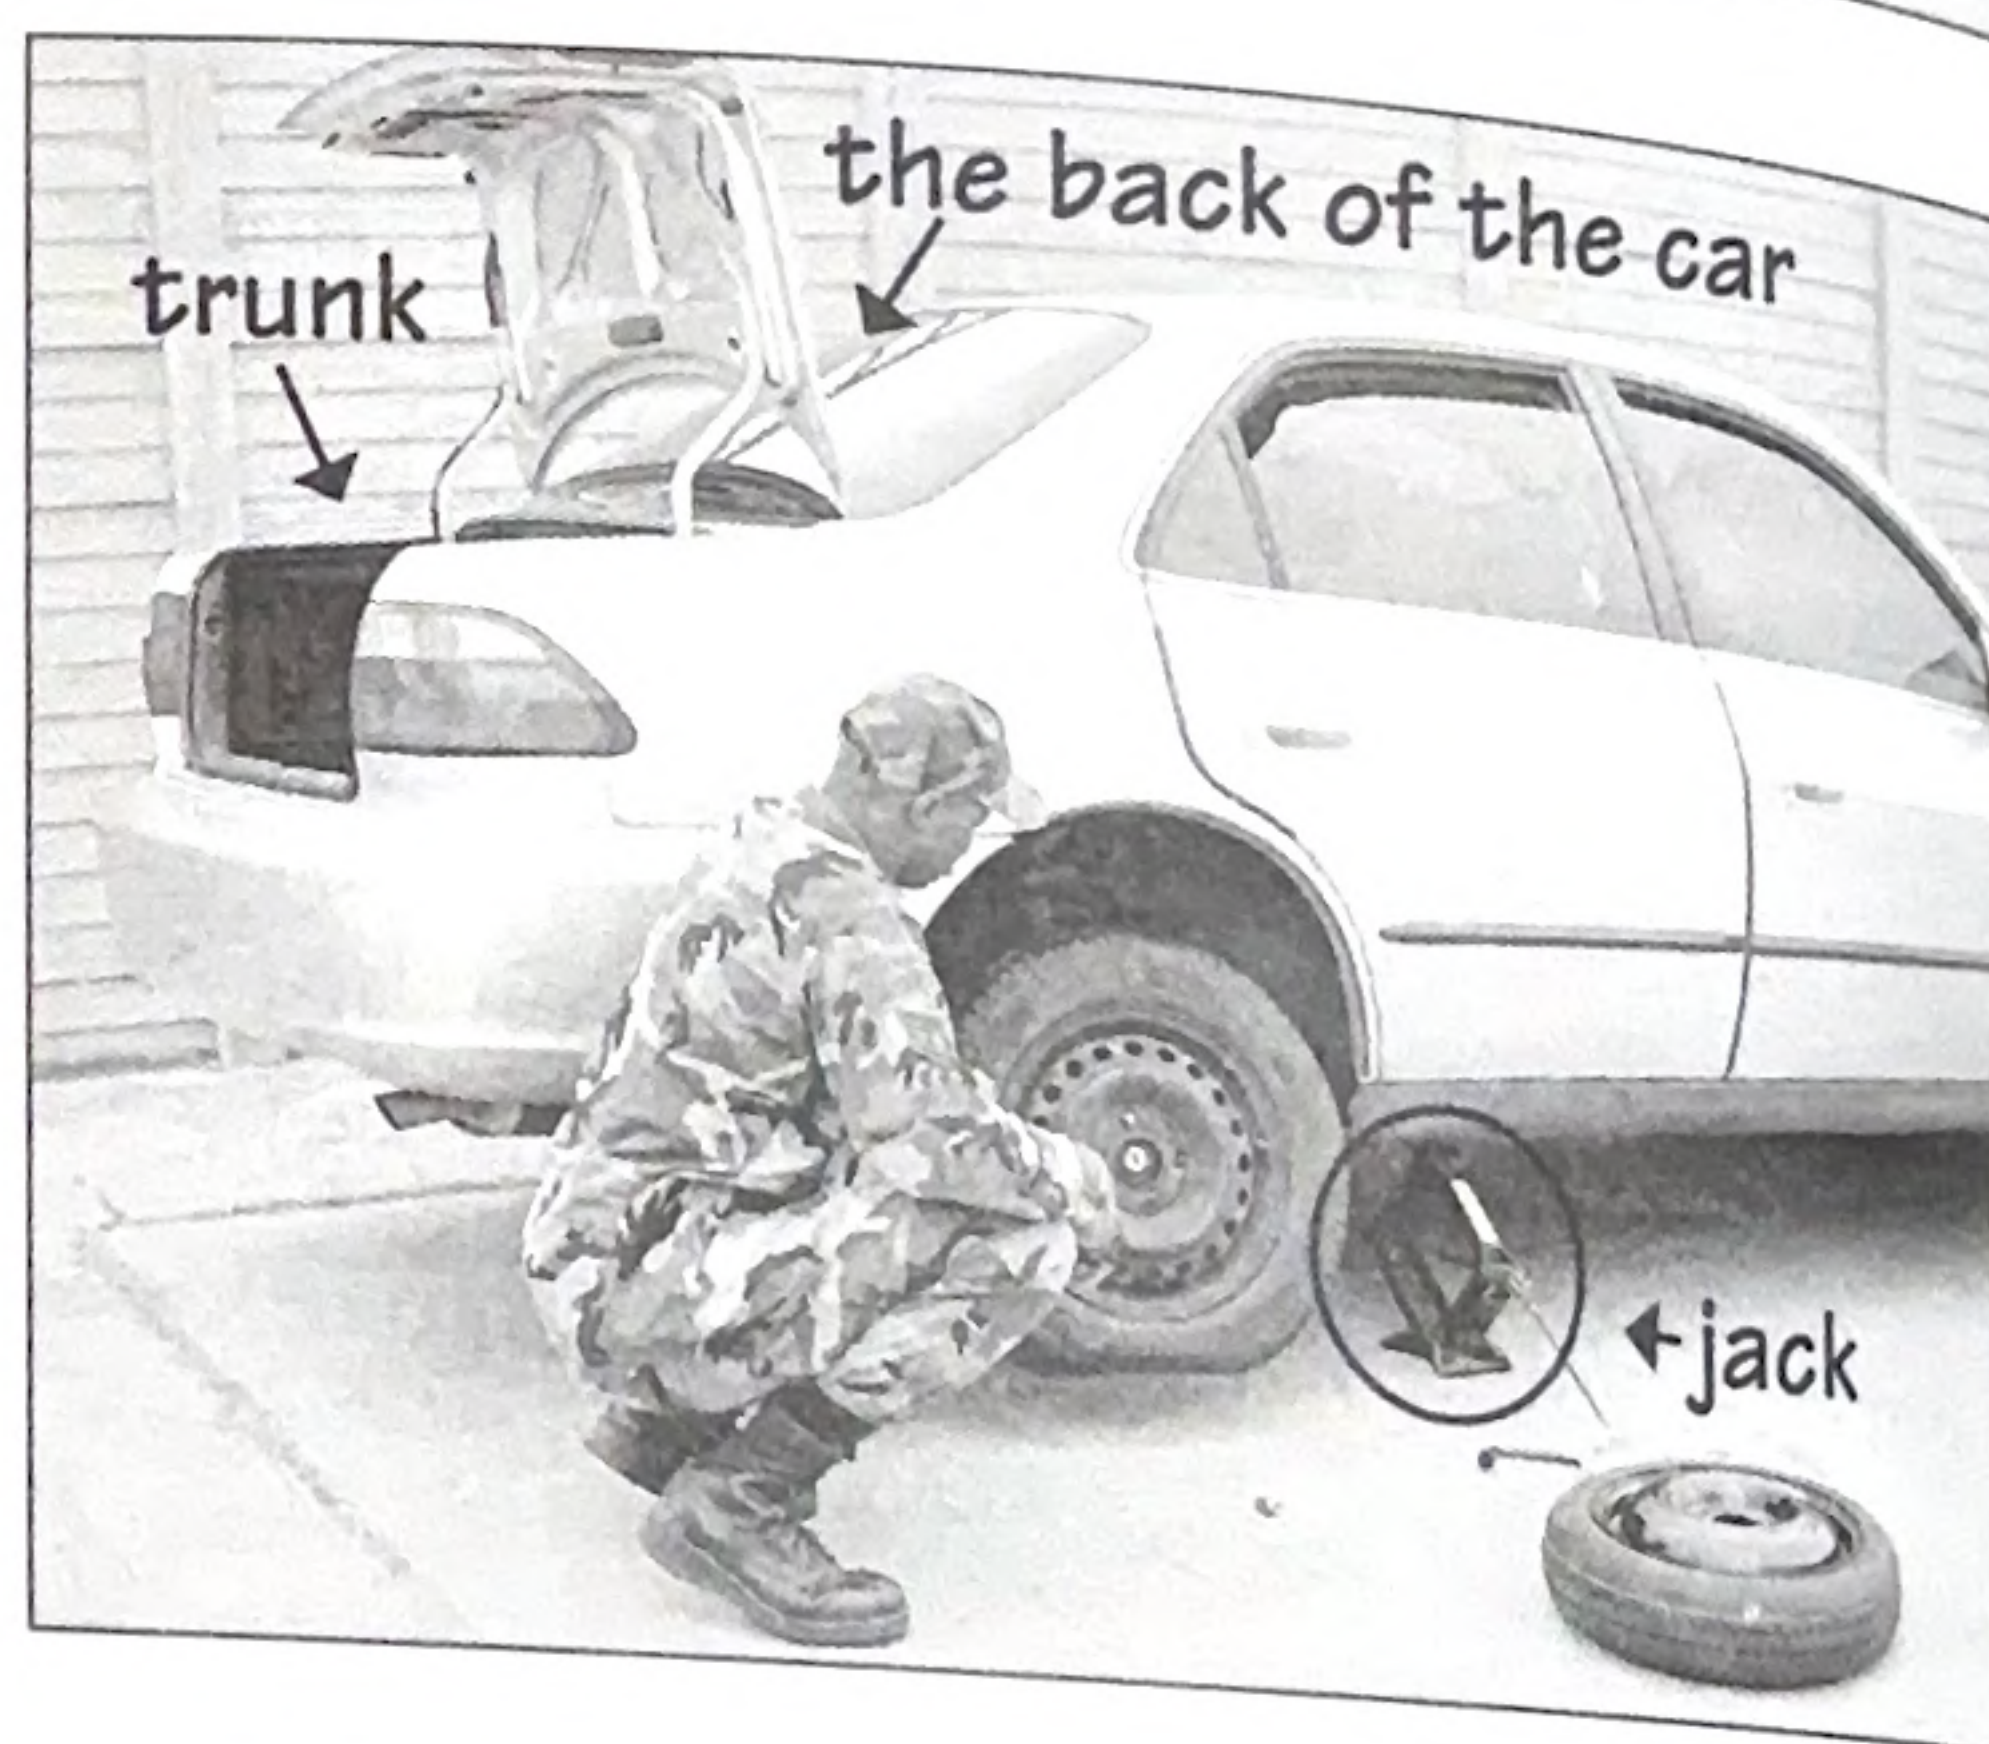

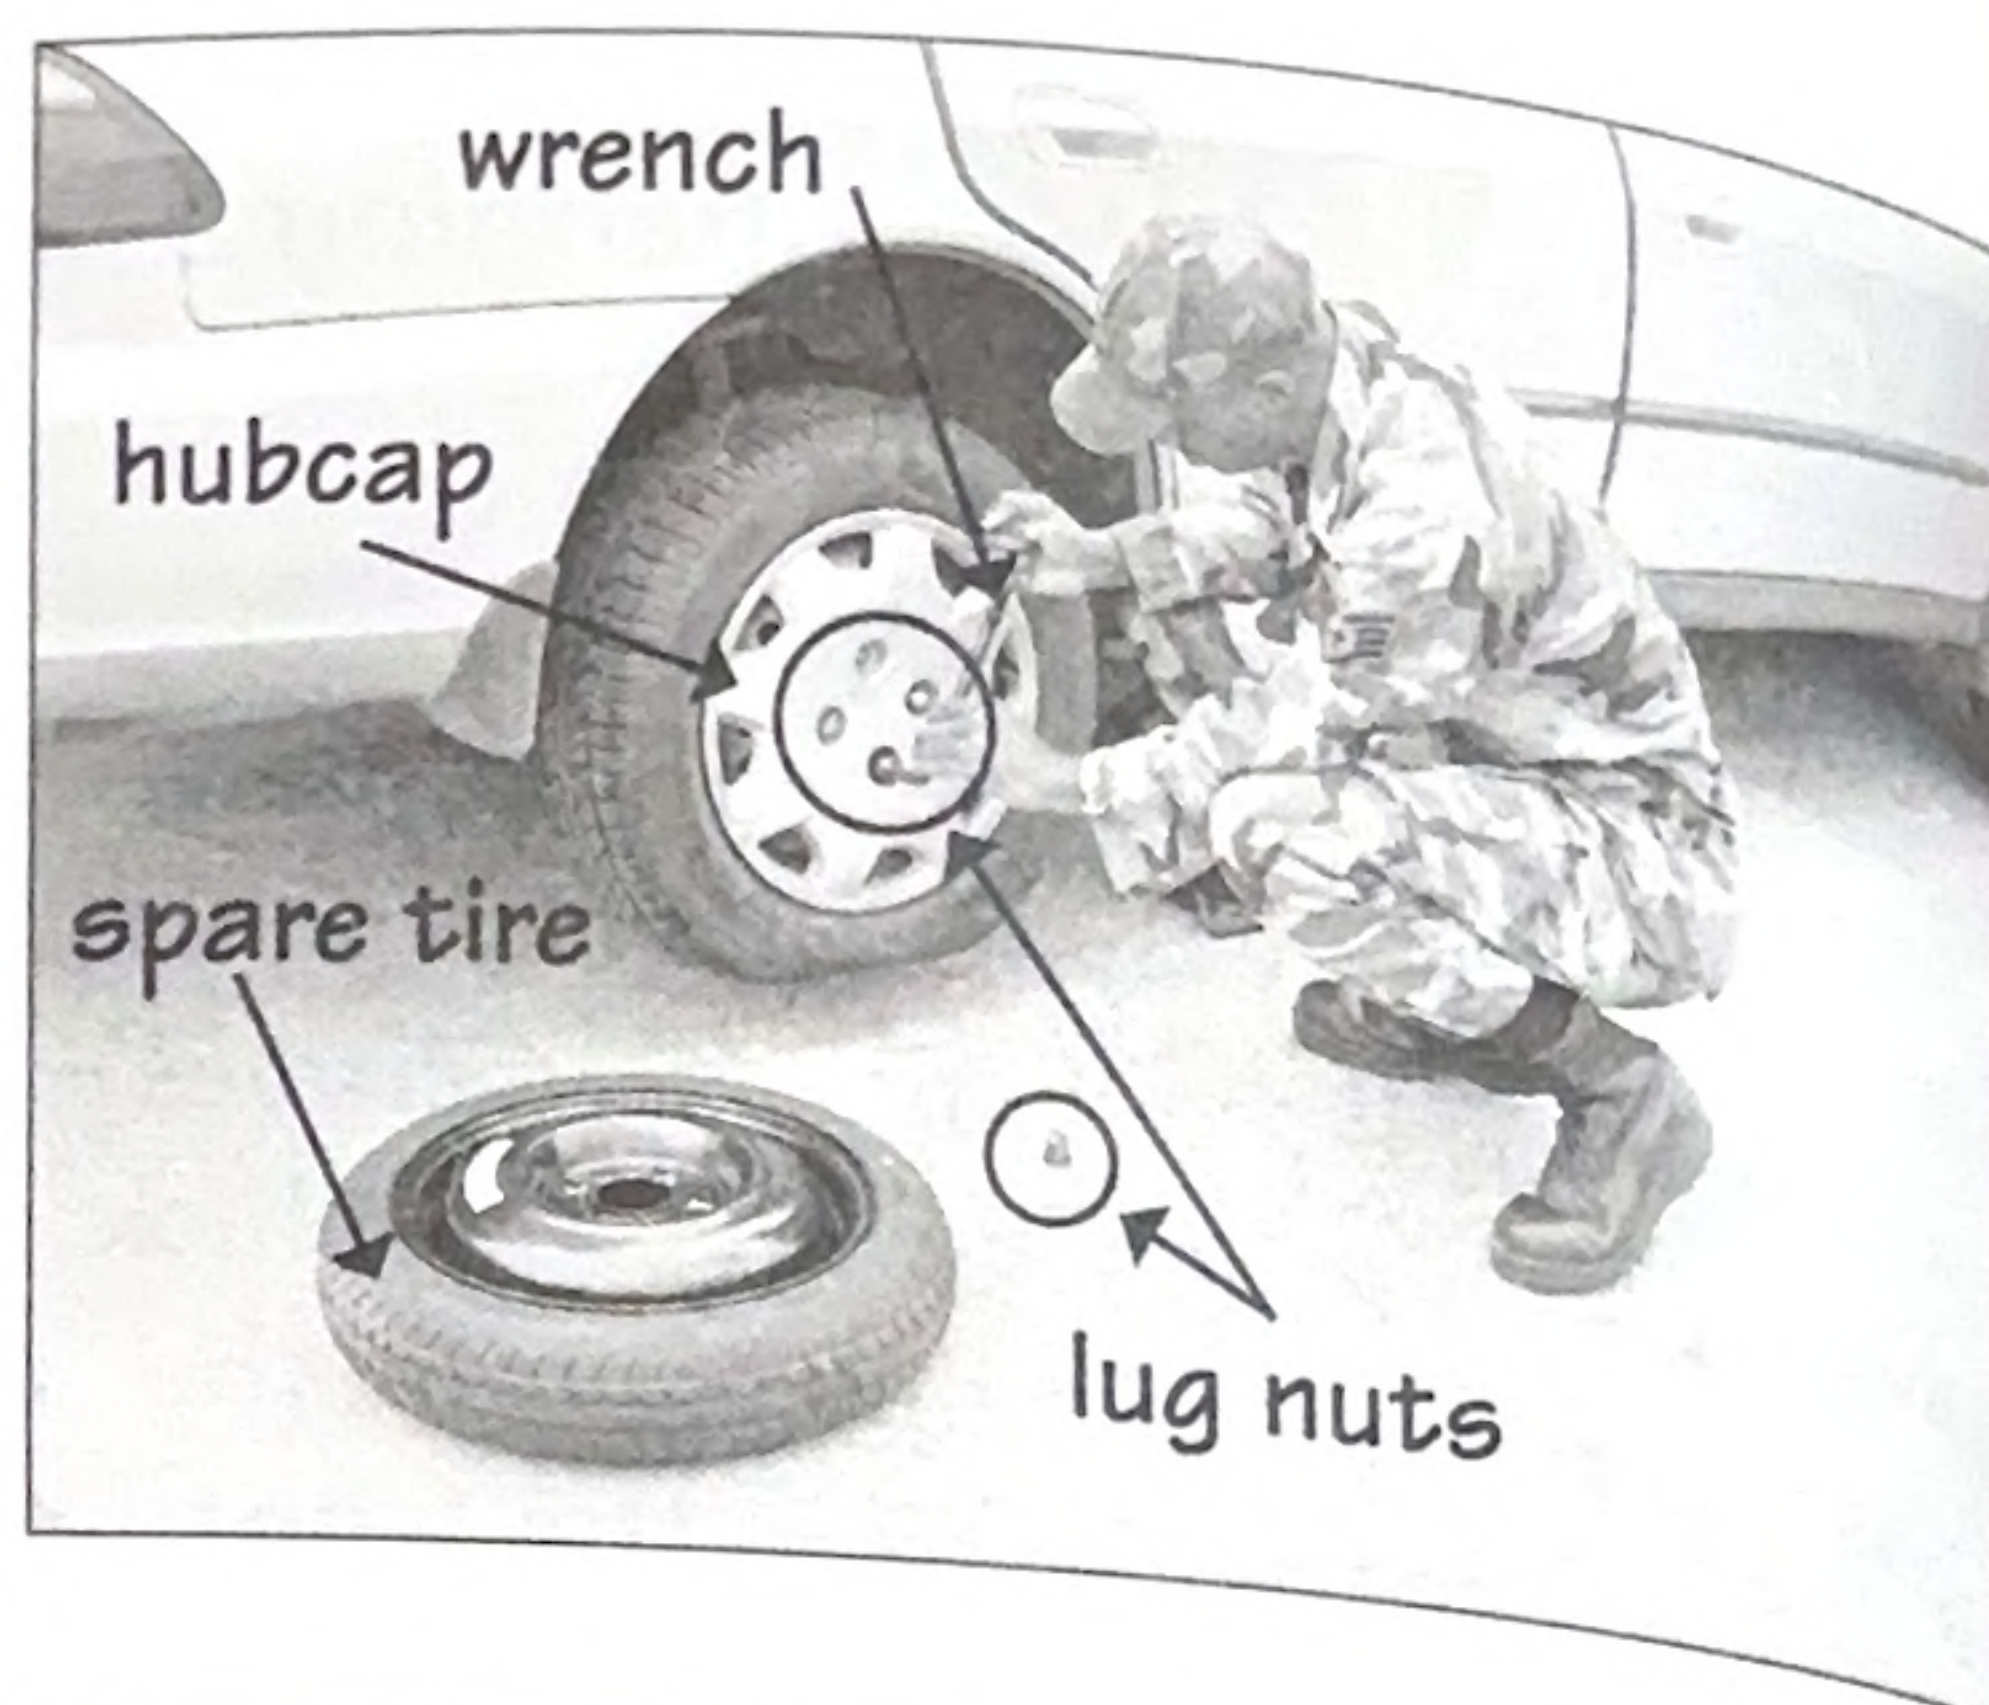

Next, remove the lug nuts and the hubcap from the wheel. To **keep** the lugs safe, put them near the spare tire or inside the hubcap.

Pull off the flat tire. Put it under the vehicle near the jack. The vehicle could fall off the jack, but the tire will help you to raise it again.

After that, put on the spare tire. **Replace** the hubcap and the lug nuts. **Tighten** the nuts with the wrench. Then, **lower** the vehicle until the wheel touches the ground.

Make sure the lug nuts are **tight**. They shouldn't be **loose**. Your wheel could come off while you're driving, and you might have an accident. Tighten the nuts again.

Finally, remove the jack. Clean the tools. Put the jack, wrench, and the flat tire into the trunk. Take your flat tire to a mechanic. He can repair it for you.

Some final advice: Be sure to keep enough air in the spare tire while it's in your trunk. It's a **common** mistake to forget to do this. Check the tire and **inflate** it when it needs air.

Grammar

Using *would* and *could* in polite requests

Polite Requests	Answers
Would you help me study for the test?	Yes, I'll be happy to help you. I'd like to, but I can't right now.
Could you drive me to the bank?	Certainly. I'll be glad to. Sorry, I can't today. I'm busy all day.
Will you open the door, please?	Of course , I will. Sorry, I can't. My hands are full.
Can I use your car tomorrow?	Sure, you can. What time? No, you can't. My car's in the garage.

❖ *Would* and *could* are more polite than *will* and *can*.

EXERCISE A Read the dialogs.

- Bob: Could I leave early this afternoon?
Tom: Sure. See you tomorrow.
- Ann: Would you show me how this machine works, please?
Mary: Yes, of course, I can.
- Peter: Can you help me with tonight's homework?
Alan: No, I can't. I have to study for a big test tomorrow.
- John: Will you pick up some groceries at the store after work?
Ann: Sorry, but I have a doctor's appointment. I'll do it tomorrow.

EXERCISE B Match the two columns to form sentences.

- | | |
|-----------------------------------|--------------------------------------|
| _____ 1. Would you introduce me | a. the car with gasoline, please? |
| _____ 2. Could you please mail | b. Col Burns today at 4 o'clock? |
| _____ 3. Can you clean | c. you a question? |

Man Drives Truck into Department Store Window!

The police received a 911 call from Clark's Department Store yesterday. The store manager said to the police, "Come immediately! Someone just drove a truck into the front window of the store!"

When the police officer arrived at the store, he asked, "Could you explain what happened?" The store manager said, "An old man was driving the truck. He got very sick. He ran off the road and into the store window. He's in the truck now. Help him, please." At the same time, a woman said loudly, "Will someone please get a doctor?" Another woman said, "Call an ambulance now!" Then, a young man said, "Help me get the old man out of the truck!" Everyone worked together to get the old man out of the truck. When the ambulance arrived, the police officer said, "Take the man to the hospital."

The man spent one night in the hospital. He's resting at home now. His wife said, "I was very upset about my husband's accident, but so many wonderful people came to help. Would you please thank all the nice people who helped my husband?"

EXERCISE E Answer questions about the text above using indirect speech.

What did the store manager say to the police when he called 911?

He said to come immediately.
