The word family means more than just the **parents** and children who live together under one roof. Family also means a group of people with the same **relatives**. These are **grandparents**, **aunts**, **uncles**, **nieces**, **nephews**, and **cousins**. Relatives are also people who belong to the family by **marriage**.

Many families like to remember important times with pictures, or photographs. When a new **baby** comes into the family, when the baby grows into a child and then into a young adult, when the young adult graduates from school and then **marries**—these are the times parents want to remember with photographs. There's usually at least one person in every family who takes and **collects** the family's photos. A big **collection** of family photos is a wonderful thing to have!

EXERCISE A

Look at the family tree and read about Mary and John.

Mary and John met many years ago. They were both **single** then, and they soon became good friends. One year later, they decided to **get married**. Their **folks** were very happy when they heard the good **news**. In the years that followed, Mary and John had two children, Sara and Tom. Now Sara and Tom are adults, and Mary and John are beginning to think about their children's marriages. When they're **married**, will Mary be a **grandmother** and John a **grandfather**? It's **pleasant** for Mary and John to think of being grandparents.

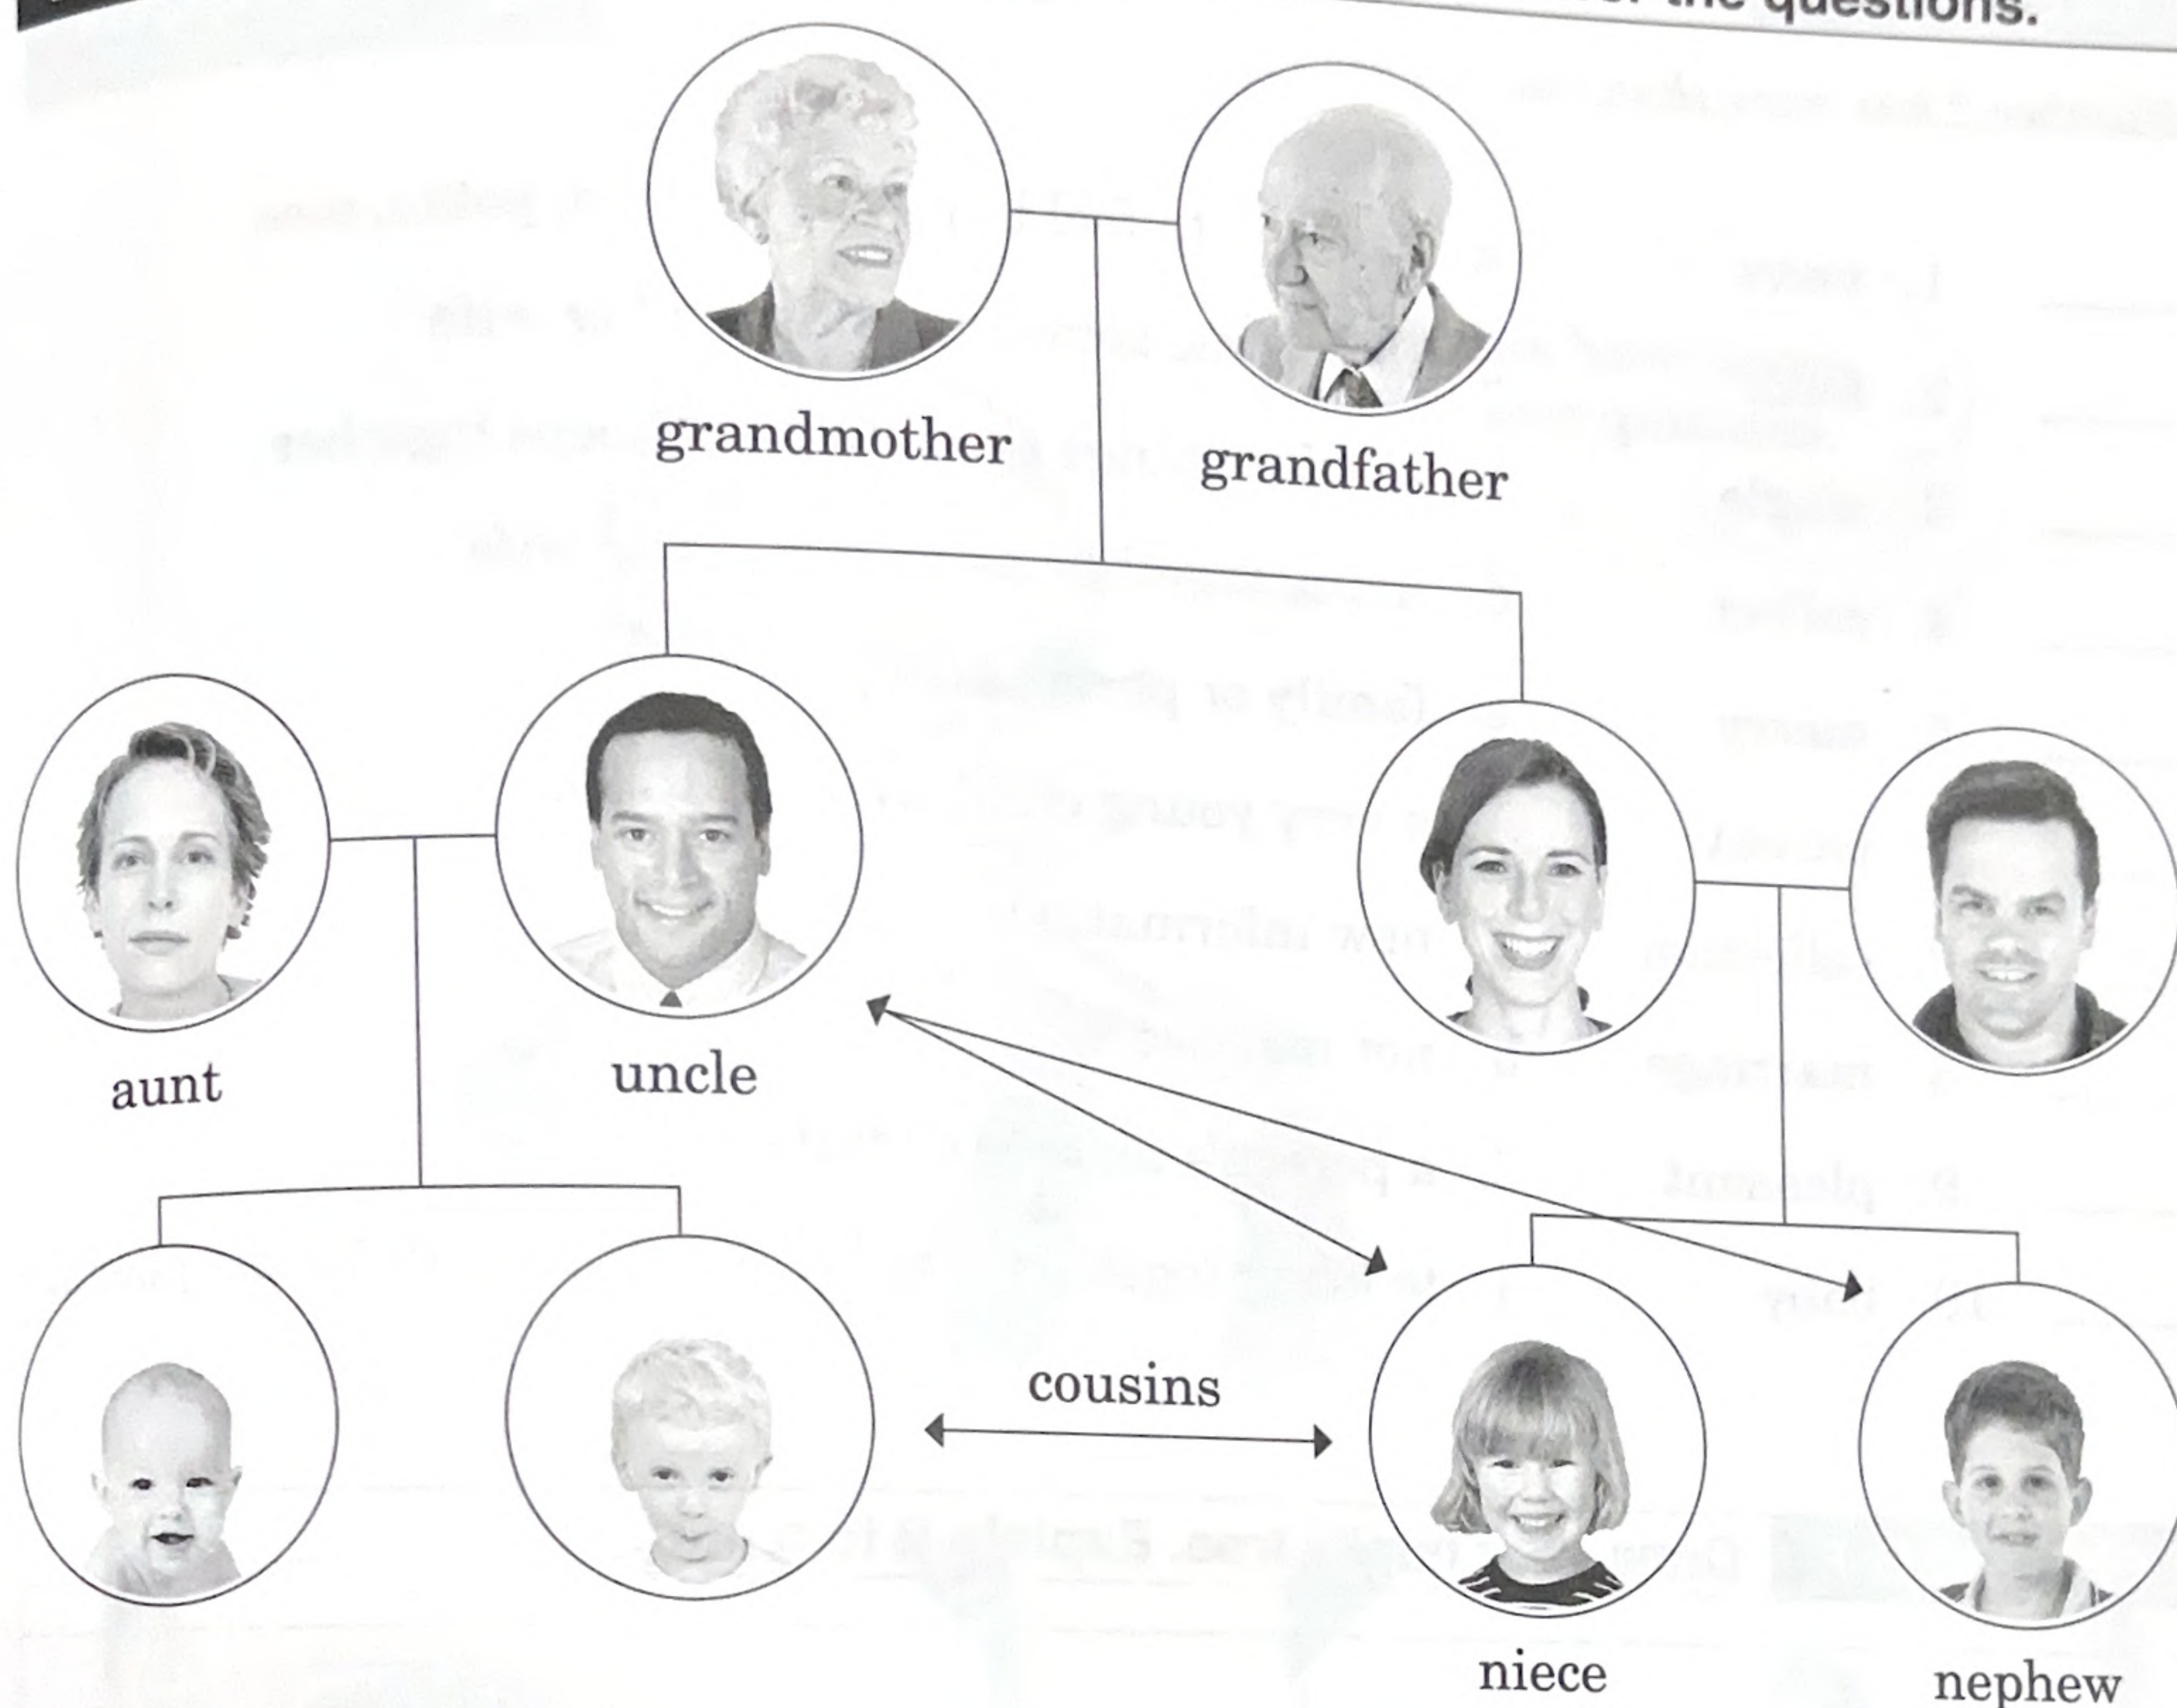

EXERCISE B

Answer your teacher's questions.

Who are your relatives?

They're my parents, brothers and sisters, grandparents, uncles, aunts, cousins, nieces, and nephews.

EXERCISE C Look at the people in this family and answer the questions.

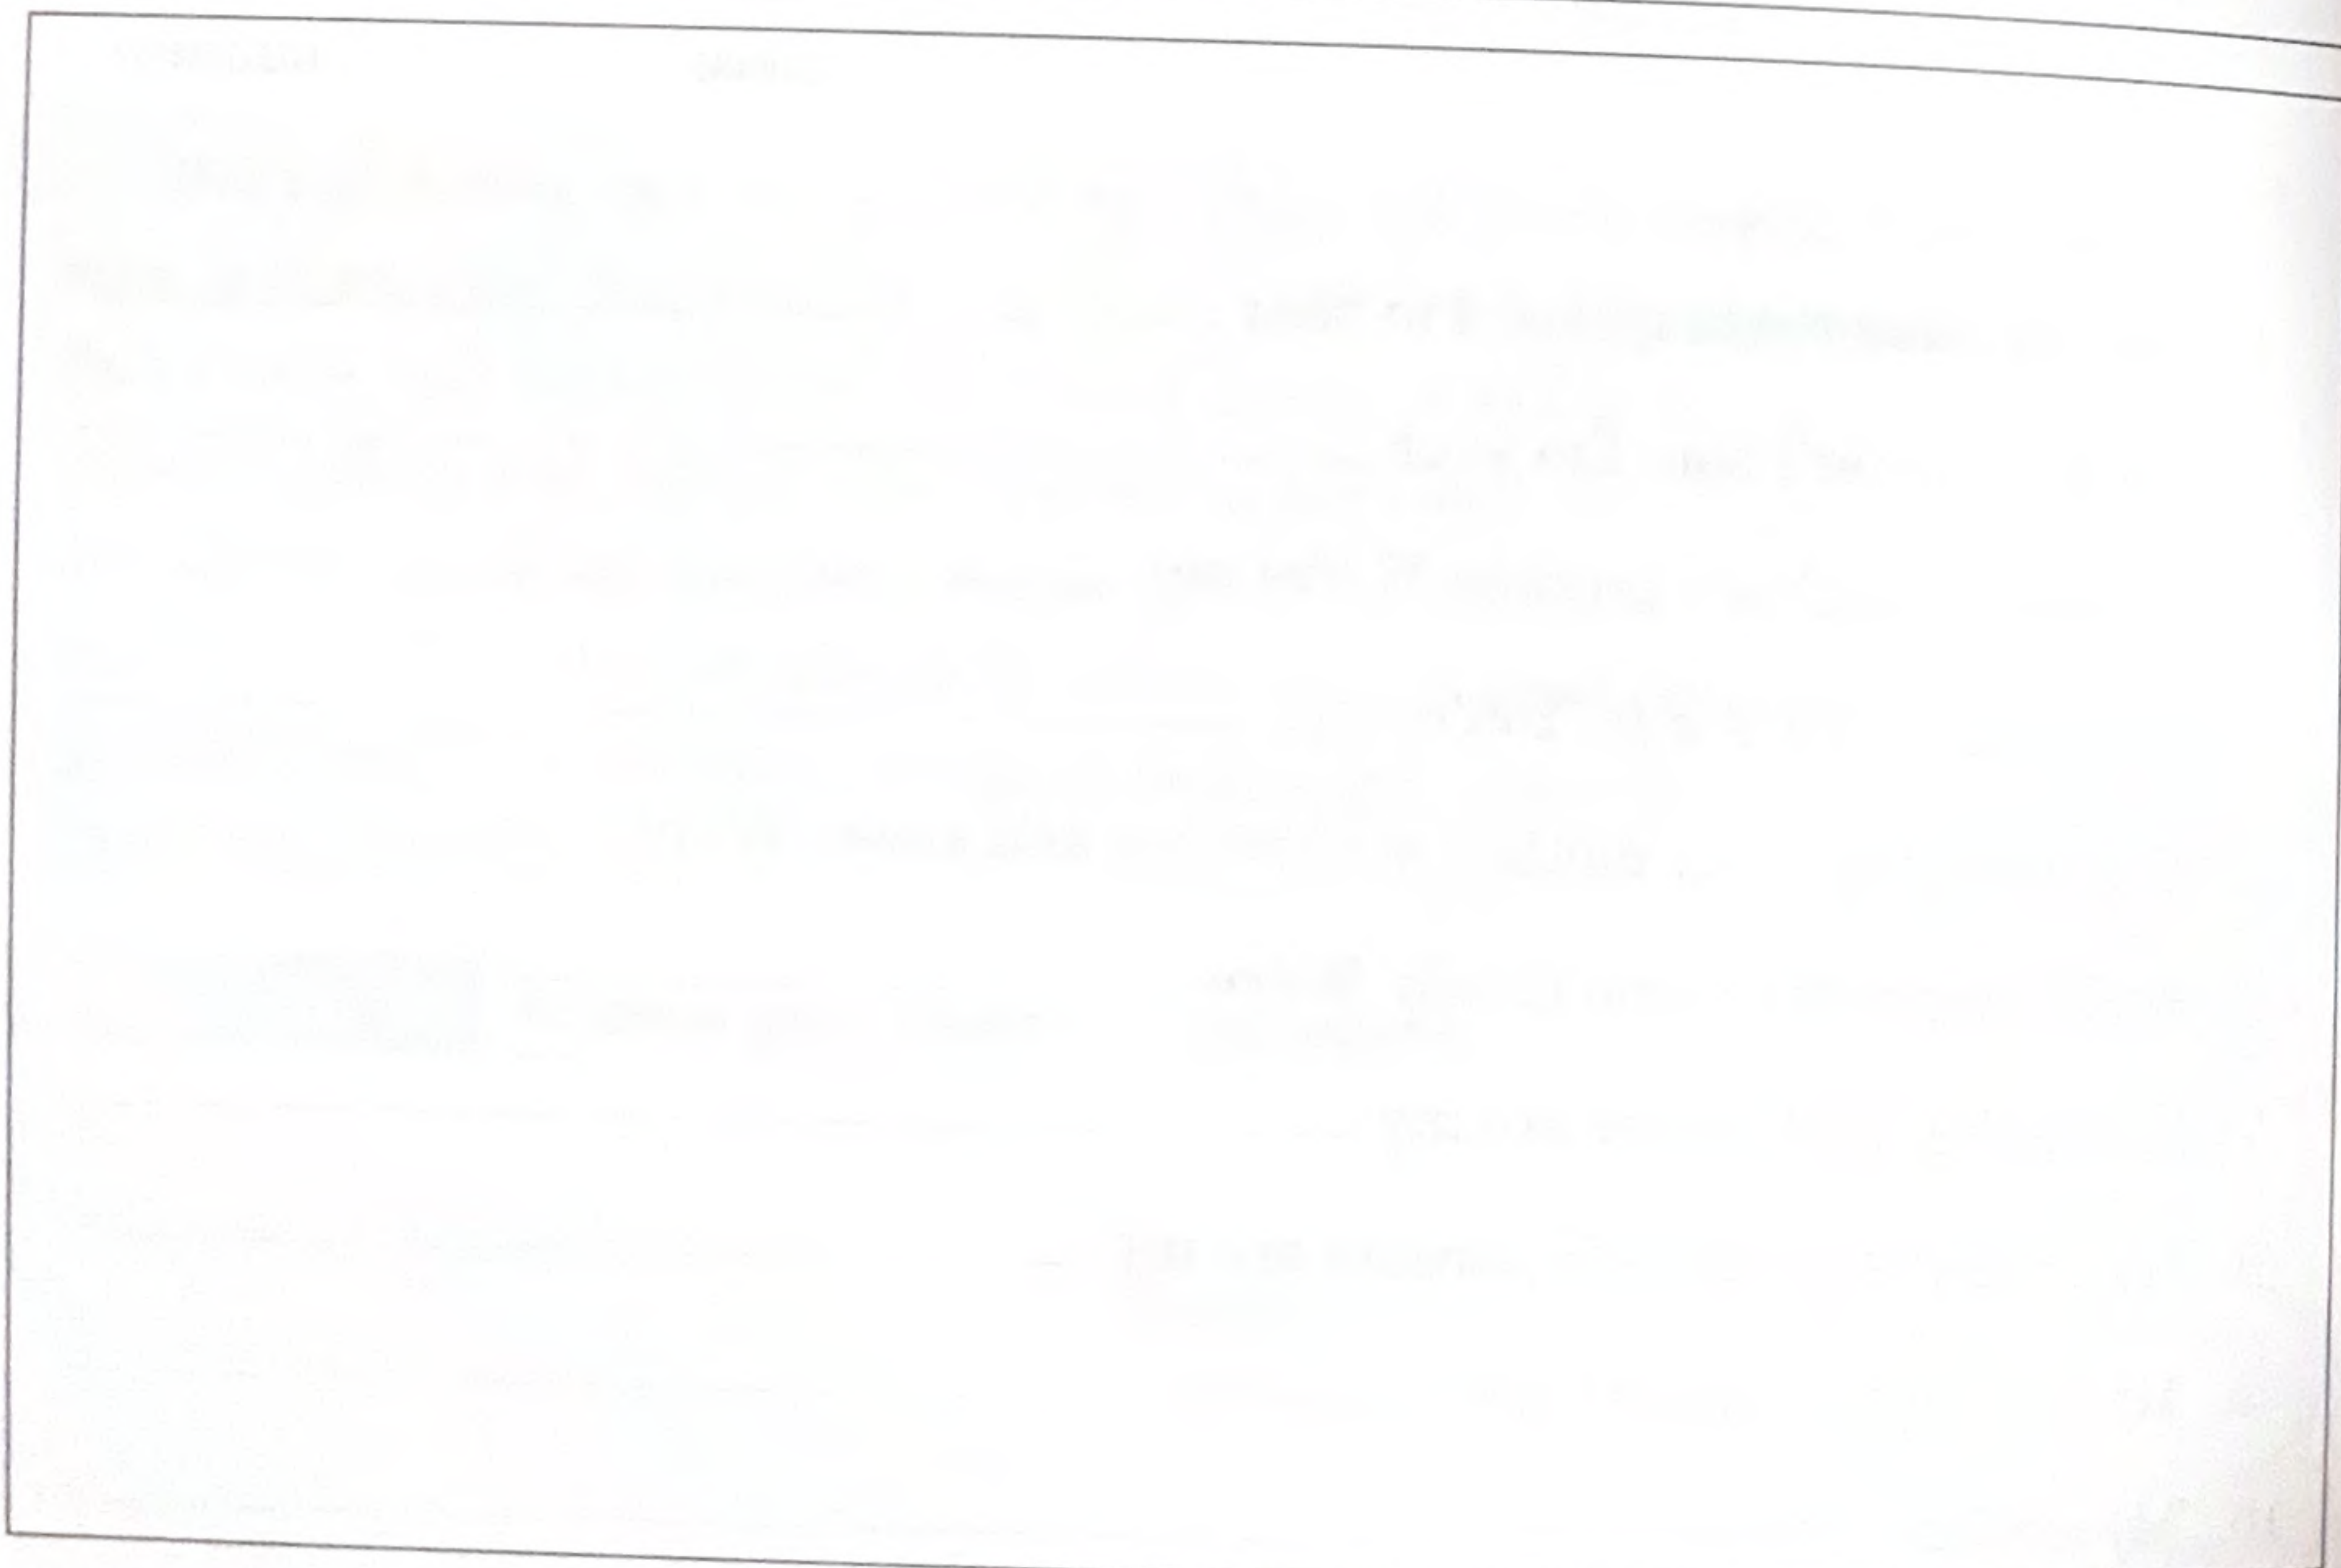

1. I'm your sister's daughter. I'm your _____.
2. I'm your sister's son. I'm your _____.
3. You're my mother's brother. You're my _____.
4. You're my uncle's wife. You're my _____.
5. Your father and my mother are brother and sister. We're _____.
6. We belong to the same family. We're _____.
7. My mother and father are my _____.
8. My mother's or father's parents are my _____.
9. My mother's mother is my _____.
10. My mother's father is my _____.

1 Is the American family smaller today than it was when the first
 2 Europeans came to the new land? Historians, the people who study
 3 what happened in earlier times, say no. They say that the size of the
 4 American family did not change much over the years. The picture of
 5 the American family today is similar to the picture of the American
 6 family many years ago.

7 When we think back to earlier times, we often think of children
 8 growing up in large families—not only around parents, brothers, and
 9 sisters, but also around grandparents, aunts, uncles, and cousins.
 10 Historians tell us that this was not always true. In earlier times, most
 11 American families were small. Historians point to two important
 12 things that happened in the new land. (1) Among the first Europeans
 13 to come to the new land, most were single men and women. Of those
 14 who were married, most came alone or with only their children.
 15 (2) When American cities began to grow big, people went there to look
 16 for work. They usually went alone, and didn't bring their relatives with
 17 them. Few city families had grandparents living with them.

18 Historians tell us that the American family today looks similar to
 19 the family of yesterday. And like Americans from earlier times,
 20 Americans today enjoy being with all of their relatives when they are
 21 able to.
